

I am encouraged
and supported to
get screened,
tested and
treated for STIs

I see youth
STBBV social
media and
awareness
campaigns

I have a safe
space to meet
and make
friends

I know I'll be
supported if I
want or need
to reach out to
other youth
services

My thoughts
and ideas are
listened to and
considered

I hear about and
am encouraged to
get involved with
programs that are
relevant to me

My lived
experiences are
acknowledged
and respected

I am offered
support when I
need it, and I
know that it's
readily
available

I trust and have
a great rapport
with youth
workers and
staff
