

WHAT THEY DON'T TELL US GUYS ABOUT SEX

All men's bodies are valid.

Penises come in all shapes and sizes

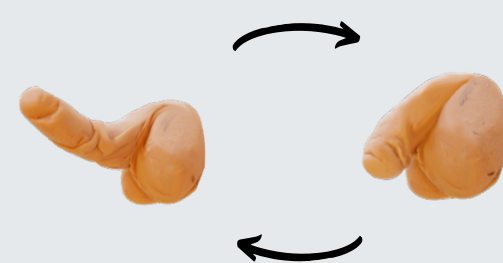

Porn can add to your pleasure, but it can also be unrealistic.

Pleasure is a team effort.

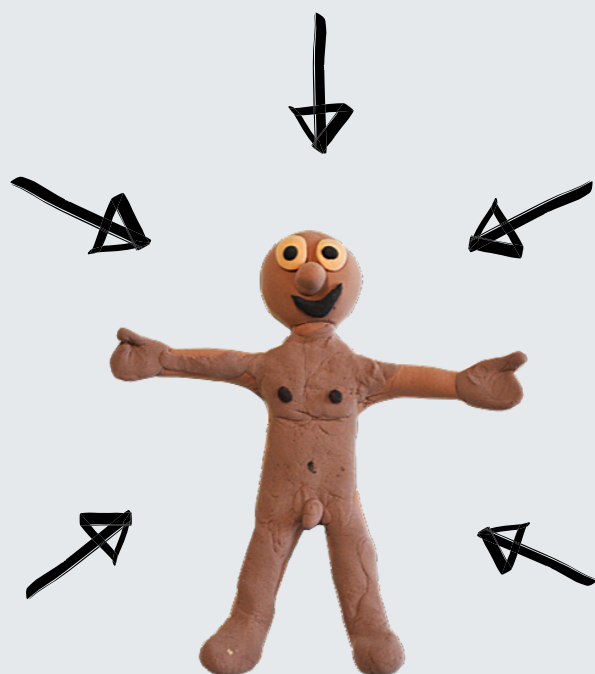

Lots of guys feel emotional after sex, there's no shame in that.

Getting hard and staying hard can be hard.

Consent is an ongoing discussion between everyone involved.

Lots of body parts can give you pleasure, not just the penis

Masturbation can be good for your mental health

You don't have to want sex to be a man.

Fingering

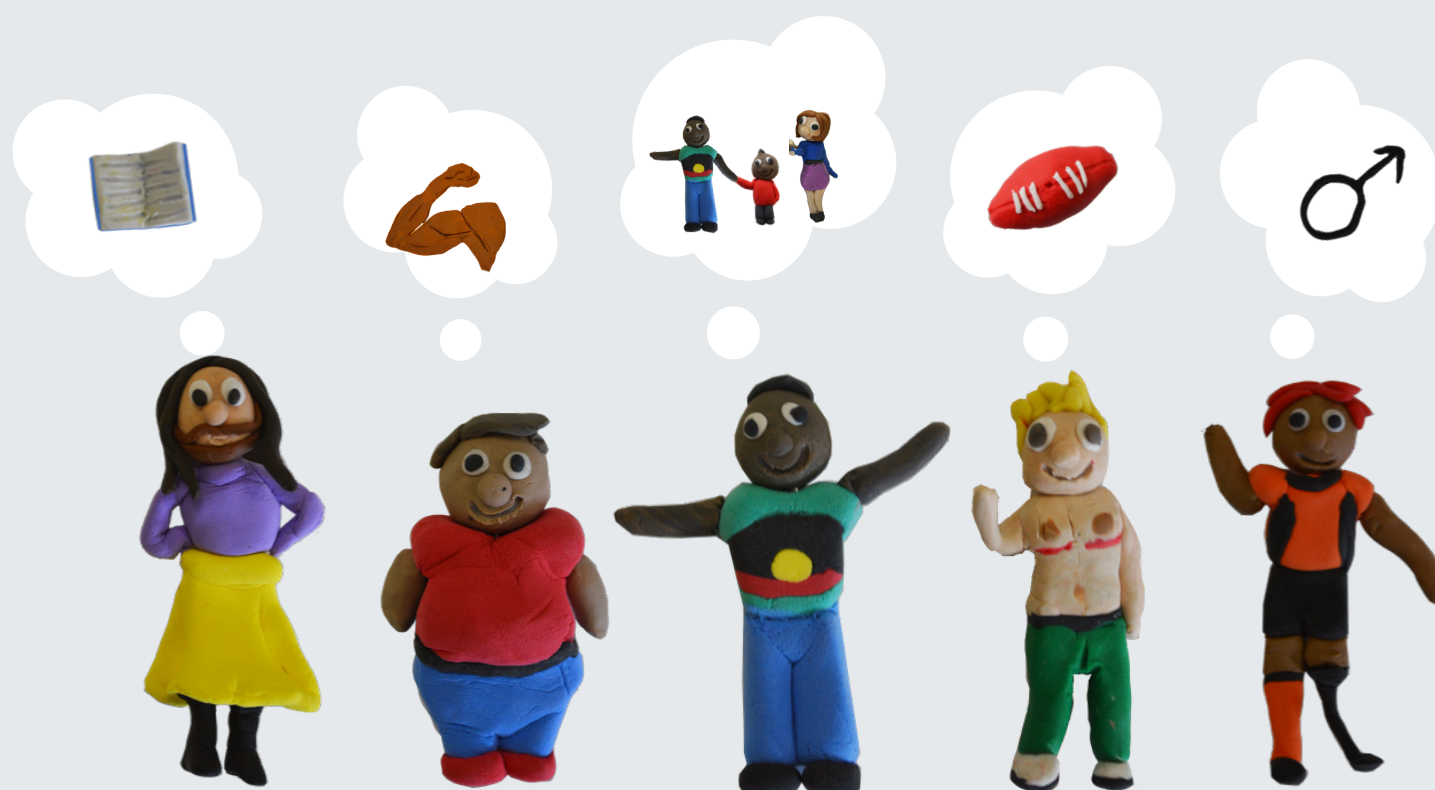

oral

humping

anal

kissing

Sex is more than just penis in vagina

Being a man means something different to everyone.
